Arming Away via your panel (when leaving your home)

Use the Away mode to arm the system when everyone will be leaving the home. Interior and perimeter sensors are armed in the Away mode.

- 1 Close all sensor-protected doors and windows before arming.
- 2 Verify that the  button on the Control Panel is lit green, indicating that the system is ready to arm.
- 3 Tap the **Home** button (should be green).
- 4 Tap **Security**.

- 5 Tap **Arm**.

NOTE: If any perimeter door or window sensors are open, the **Bypass** screen appears. Close all the sensors displayed or tap **Bypass All** to force bypass the displayed sensors.

To bypass sensors, enter a *user code*.

6 Tap **Away**.

7 The system arms and shows the Exit Delay counting down.

Arming Stay via your panel (when going to bed)

Stay mode arms only the sensor protected perimeter doors and windows. It leaves interior motion sensors unarmed. Close all sensor-protected doors and windows before arming.

- 1 Verify that the  button on the Control Panel is lit green, indicating that the system is ready to arm.
- 2 Tap the home button (should be green).
- 3 Tap Security.

- 4 Tap the **Arm** button.

- 5 Tap **Stay** to arm the system.

NOTE: If any perimeter door or window sensors are open, the **Bypass** screen appears. Close all the sensors displayed or tap **Bypass All** to force bypass the displayed sensors.

To bypass sensors, enter a *user code*.

- 6 The system will arm straight away.

Disarming the system via your panel

Disarming from Stay Mode

Disarm the system from Stay mode before exiting the premises (e.g. before leaving in the morning).

- 1 At the **Security** screen or the **Menu** screen, tap **Disarm**.

- 2 This action displays the **Disarm Code** screen.
- 3 Enter a valid user code to disarm the system.

Disarming from Away Mode

The system should be disarmed from Away mode while entering the premises.

- 1 The **Disarm Code** screen displays on the Control Panel and the Entry Delay beeps sound.
- 2 Enter a valid user code to disarm the system.

Downloading the Smartphone App

- 1 Go to Google Play or Apple App Store.

- 2 Download the alarm.com App.

You should have received a username and first-time password from Action24 by email. If you have not yet received the email please contact us - service@action24.ie or 01-2973333.

- 3 Enter your username and password and tap **LOGIN**.

A screenshot of the Alarm.com mobile app login screen. At the top is the Alarm.com logo. Below it are two input fields: "Username" and "Password". The "Password" field has a small eye icon to its right. Below the input fields is a dark gray button with the word "LOGIN" in white. At the bottom, there is a checkbox labeled "Keep me logged in" and a link labeled "Login Help".

- 4 Enjoy all the features of the award winning alarm.com app!

Arming Away via your Smartphone App (when leaving your home)

IMPORTANT: To set your **alarm to Away Mode** via the smartphone app you must be outside the home. If you set it whilst inside the home the alarm may trigger.

- 1 Exit your home (ensuring all doors and windows are closed).
- 2 Immediately log onto your alarm.com Smartphone App.
- 3 Tap **SECURITY SYSTEM**.

- 4 Tap **ARM (AWAY)**.

- 5 The alarm will be **immediately set** and will display **ARMED AWAY**.

Arming Stay via your Smartphone App (when going to bed)

- 1 Open your smartphone app.
- 2 Tap **SECURITY SYSTEM**.

- 3 Tap **ARM (STAY)**.

- 4 The alarm will be immediately set (perimeter only) and will display **ARMED STAY**.
